Join the *KSEA-SC Career Mentoring Roundtable Meeting* to learn how to prepare for successful career development strategically by interacting with our prestigious scholars and professionals in multiple domains.

### We will discuss many things that include:

- How to start preparing for academic and industry positions
- The current technology and scientific trends in a professional field
- What you should say or not say during an interview
- How to lead and actively engage the interviewers
- Strategic networking skills in academy/industry
- Many critical insights in reviewing applications
